

MEMORANDUM FOR: EXDIR

Since retirement is mandatory the regs call for the head of a career service to support a request to the DCI for an extension of the retirement date.

Suggest that

- the response come from the Chiarmen, E Career Service and not the Executive Director
- that both [ ] and your memos be classified they refer to a Europe inspection and proprietaries
- that we not suggest that [ ] appeal to the DCI. There is no ~~written~~ procedure for such an appeal - he can of course write directly or initiate a grievance case, but I do not see suggesting to an employee that he pursue an issue further with the DDCI when we know what the outcome will be.
